

## Patient Participation Group (PPG)

Do you want to make a real difference and get involved with your GP practice? Then become a PPG member.

PPGs are groups of active volunteer patients who work in partnership with practice staff and GPs. Groups meet either face-to-face with practice staff at agreed times or online through email networks, surveys and social media.

PPGs help to improve, change and develop patient services. This unique partnership between patients and practices is essential to achieving high quality and responsive care.

**You can make a difference!**

**If you are interested in becoming a member of a patients participation group at your local practice, please speak to practice staff.**
