

BHR CCG's Secondary Care 2018/19 Medicines Management Workplan

Area	Focus	Cost	Quality	Safety	National	Local
Secondary Care Workstreams						
Acute Trust Contracts	Medicines management commissioning principles, interface policy and list of PbR excluded drugs that are applicable to the CCG to be included in the BHRuT contract					
	Introduce medicines management Key Performance Indicators (KPIs) and audit around QIPP					
	Develop and implement a gain-share for BHRuT and NELFT around the cost effective use of insulin					
	Agreeing the use of biosimilar biologics for CCG commissioned PbR excluded drugs					
Eye Treatment	Support pathway development for eye treatments in conjunction with the NEL/NC ophthalmology group					
Homecare Services	Maximise the use of homecare services in line with local and national policy					
	Ensure BHRuT deliver on their KPIs for reducing drug wastage via homecare					
Home Oxygen Service (HOS)	Support monitoring of the HOS contract					
	Monitor BHR CS delivery of the HOS Assessment and Review Service utilising agreed KPIs					
	Support ELHCP commissioners via the London Contract Management Board					
Individual Funding Requests (IFR)	Ensure only applicable drug related IFRs and prior approvals are triaged and worked up by the CCG MMT					
	Develop a process to enable pre-payment verification of IFR approved drugs that are applicable to the CCG					
	Support the development of Business cases and tick boxes to ease the IFR process					
Managed entry of new drugs	Horizon scanning to assess the impact of new drugs/therapies using tools such as prescribing outlook and NICE. Manage the entry of new drugs therapies where these relate to primary care prescribing and/or PbR excluded drugs funded by the CCG through:					
	BHR Area Prescribing sub-Committees (APC)					
	Acute/Provider Trust drugs and therapeutics groups/committees					
	Medicines Optimisation ELHCP Steering Group					
Manage PbR Excluded Drugs	Other relevant stakeholders					
	Ensure the correct route of funding is utilised for PbR excluded drugs to NHS England and the CCG					
	Support the development and use of TBF for PbR excluded drugs including utilisation of Blueteq					
Woundcare Products	Post payment verification of PbR excluded drugs that are applicable to the CCG					
	Update and implement formularies around woundcare in conjunction with NELFT community services					
	Ensure nursing home compliance with their limited wound care formulary
